고흐 해바라기 해체주의와 조합
Sun Flower of Gogh Deconstructionism and Combination

2012
LED TVx2, 2-channel video, color, sound
8' 55''

Information

I became interested in the changing value pattern by newly combining the existing values of masterpieces. As if ants follow the artist's instructions, they move in perfect order and break down Gogh's sunflower work to create a new work. It is a work that studies the value and persistence of the original work through digital and how it is recreated as it changes.

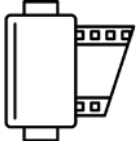

신-금강전도
New-Geumgangjeondo

2009
LED TV, single-channel video, sound
7' 10''

Information

The symbol of Geumgang Mountain. The peaceful Geumgang Mountain has become a battlefield unfortunately over 300 years later. The stopped landscape in classic paintings remains but as time passed and life changed, the context of space became diverse. As political and social situations change in the flow of history, I tried to show the image of Mt. Geumgang, which has the symbolism of the war base where the South and the North Korea confront each other, as if it were a movie.

김홍도-묵죽도
Kim Hong Do-Painting of Bamboo

2013
LED TV, single-channel video, color, sound
6' 18''

Information

LEE has attempted to animate the original Bamboo painting by Kim, Hong-do who is one of the masters from the late Chosun Dynasty, expressed by the effect of darkness and light with Chinese ink, through the digital way of reinterpretation. It is for infusing a fresh life from out of the traditional picture frame by the digital effect of gentle wind blowing and snow scene, and for generating new values and interest for contemporary audiences in the role of a bridge to connect classic with modern art. The audience would be expected to feel a sort of Utopia through the new way of communication by integrating the classical beauty and digital technology.

꽃은 어디에서 오는가? |
Where do flowers come from? |

2022
LED TV, single-channel video, color, sound
8' 55''

Information

It is a digital reinterpretation of the inspiration from Johannes Vermeer`s <Girl with a Pearl Earring>. The bomb falling on the girl has a modern meaning of reproducing classical values. It also contains the meaning of the biblical background that seeds are completely extinguished on the ground and bear fruit when they die. Popcorn blooming over a girl means the fruit of the seed. At the same time, it means that new values and cultures are born.

박연폭포
Bagyeon Falls

2022
LED TV, single-channel video, color, sound
7' 9''

Information

A Confucius scholar of the Joseon period looks at the stream of *Bakyeono Fall*, an ink wash painting Jeong Seon painted with one wearing tobe, an ankle-length robe commonly worn in Saudi Arabia. The stream of the waterfall stands for a 60-year-long everlasting friendship between the two nations, representing a future-oriented energy through their cooperative relations. Classical paintings produced during the Joseon Dynasty unfold on the right and left screens like a folding screen. This work is an interesting crossover of traditional and modern images from the both countries. It is a portrayal of their friendly relations that have lasted for 60 years with past and present images that communicate with each other beyond the borders of the screens.

The images on the screens are changed depending on the gestures taken by the scholar and the tobe wearer, which represents the two nations' future-oriented bilateral relationships.

신-단발령망금강
New-Danballyeong Mangeumgang

2017
single-channel video, color, sound
6'

Information

<New-Danbalryeong Mangeumgang> is expressing the feeling of people these days looking at Kungang Mt. to the painting 'Danbalryeong Mangeumgang'. From the painting there is sadness of a divided country. Even though the crane and construction of buildings has been done the Kungang Mt. seems too far away. When can we feel the feeling of Gyeomjae has felt looking at the mountain? We put hope into the cable car that comes from the mountain.

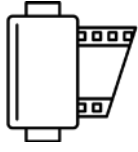

겸재정선과 세잔
Gyeomjae & Cezanne

아사천에 매화꽃 피었네
Blooming Maehwa Flowers on Linen

2013
single-channel video, color, sound
8' 50''

Information

Oriental beauty was digitally reconstructed by combining Maehwa and Linen materials. The changes in Maehwa and the beauty of colors over time were studied. The pictorial beauty through the spread of Maehwa blossoms by rainwater and the mixture of colors is maximized in harmony with oriental beauty. I tried to convey the beauty of virtual painting through the harmony of lyrical tempo and visual beauty.
